EDUCATION

Walter Sisulu University 2020–2023

Dip in ICT in Application Development

Manzana SSS 2018–2019

National Senior Certificate

LICENSES & CERTIFICATIONS

- Microsoft Certified: Fabric Data Engineer Associate
- Microsoft Certified: Azure Data Fundamentals (DP-900)
- Microsoft Certified: Power BI Data Analyst Associate (DP-700)

Cisco Networking Academy:

- Introduction to Networks
- Switching, Routing & Wireless Essentials
- Cyber Ops Associate
- Introduction to Cybersecurity
- Python Essentials 1
- Introduction to R-Studio Environment

TECHNICAL SKILLS

- Programming & Development:**
- Python, JavaScript, SQL, C#, Java, Object-Oriented Programming (OOP)
- Full-Stack Development:**
- Front-end & Back-end Web Development (React, Flask, Django, Vue)
- Cloud & Data Platforms:**
- Azure Synapse Analytics, Azure Data Lake Gen2, Azure SQL Database, AWS
- AI & Data Integration:**
- Machine Learning Deployment, Data Infrastructure, Cloud Pipelines, AI Agentic Systems
- Data Analysis & Visualization:**
- Microsoft Power BI, Data Modelling, Power Query, Data Security, Governance

Sibablwe Rayi

Software Developer

23 OCTOBER 1997

PROFILE

I am a passionate and results-driven Full Stack Software Developer with expertise in cloud-based data systems, integrated digital platforms, and AI-driven solutions. My experience spans software engineering, data management, and cloud deployment using Microsoft Azure. I take pride in designing scalable applications, optimizing data flows, and mentoring teams to deliver impactful, data-driven results. Currently contributing to technology innovation and development initiatives at Madiri Business Enterprise (Pty) Ltd, I aim to expand my impact globally by building intelligent software systems that enhance sustainable development

EXPERIENCE

Madiri Business Enterprise (Pty) Ltd 2025– Current

Sales & Technical Manager

- Lead the development and implementation of software systems that streamline business operations and data workflows.
- Collaborate with multidisciplinary teams to deliver high-quality software aligned with client requirements and strategic goals.
- Manage data integration processes and ensure system performance through testing, debugging, and optimization.
- Drive cloud-based solutions using Azure services, improving scalability and performance across departments.

Lindamahle Innovation Centre 2024– 2025

Facilitator & Software Developer

- Designed and administered databases and developed web-based educational platforms for online learning environments.
- Contributed to institutional digital transformation initiatives through innovative systems development.
- Built efficient backend logic for ad-serving and educational management systems.
- Led the first software and systems development cohort, training and mentoring future tech professionals.
